A BRIGHT FUTURE FOR ALL

The Mapleton-Fall Creek area is home to dedicated neighbors, resilient businesses, and valuable natural resources. Since 1985, MFCDC has used these assets to transform the area without displacing its residents.

This year was no exception. We repaired homes. We developed parks. We attracted newcomers and trained leaders. We fostered community and supported businesses—improving life for long-time residents even as we welcomed new people and new opportunities.

Thanks to our partners and volunteers, our neighborhoods are safer, more livable, and more connected than ever before, and we're not done yet.

MFCDC HAS A NEW LOOK. VISIT [MFCDC.ORG](https://www.mfcdc.org)

OUR KEY INITIATIVES

Housing

We built, repaired, and sold a total of 26 homes. We carried out beautification projects throughout each of our neighborhoods, and we managed dozens of properties for homeowners and renters of low-to-moderate income levels. We also educated 150 prospective homebuyers through our monthly homeownership seminar.

Economic Development

We cultivated relationships with Mid-North businesses and prepared for our first Great Places Business Development Taskforce meeting. We administered nearly \$500,000 in facade improvements to help local businesses with much-needed repairs. As we unify the nearly 200 area businesses, we are creating a vibrant commercial corridor.

Community Building

We fostered community through educational sessions, leadership training, and networking events. As part of the Mid-North Quality of Life plan, we held discussions on adopting an area health plan, explored solutions for our neighborhood's food desert, and launched a research project focused on developing solutions to chronic disease in our community.

Collaborative Placemaking

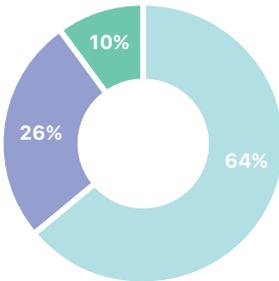

We collaborated with partners throughout the city to develop area parks, trails, and waterways, and redesigned streets to make transportation safer and more convenient for pedestrians, bicyclists, and drivers.

HOUSING AT A GLANCE

HOMEOWNERSHIP + REPAIR

| | | |
|---|--------------|--------------------|
| New builds and rehabbed homes | 4 homes sold | \$452,300 in sales |
| Existing properties | 3 homes sold | \$36,000 in sales |
